Best remaining sends — and why

For each unplayed opponent: our best-supported remaining player and the recorded evidence behind it. Not odds.

- vs David Kohlmeyer (APA record ID 3305634): best-supported send: John Yara (APA record ID 3130268) — reason: 1-1 direct record (2 meetings) — even
- vs Julia Kohlmeyer (APA record ID 2879179): best-supported send: John Yara (APA record ID 3130268) — reason: 1-0 direct record (1 meeting) — favorable
- vs Miriam Goetzke (APA record ID 2199794): best-supported send: John Yara (APA record ID 3130268) — reason: 1-0 direct record (1 meeting) — favorable
- vs Rebecca Dehart (APA record ID 2363675): best-supported send: John Yara (APA record ID 3130268) — reason: 1-0 direct record (1 meeting) — favorable
- vs Craig Eastman (APA record ID 3320773): best-supported send: Dave Gallardo (APA record ID 3248815) — reason: shared-opponent results only: ours 1-2 vs theirs 1-1 across 2 shared opponents (no direct meetings)
- vs Tiffany Blanchard (APA record ID 999098): best-supported send: John Yara (APA record ID 3130268) — reason: 1-0 direct record (1 meeting) — favorable
- vs Jessica Blair (APA record ID 1666629): best-supported send: Dave Gallardo (APA record ID 3248815) — reason: shared-opponent results only: ours 6-1 vs theirs 2-2 across 3 shared opponents (no direct meetings)

Protected players — unique favorable options (consider saving)

The only remaining favorable direct option against an unplayed opponent.

Evidence ranking vs each opponent

Captain assistance only — this orders our players by recorded evidence. It is not a win probability (none is calibrated or published; probability_publication stays FORBIDDEN) and not a guaranteed or optimal lineup. Small samples are noisy. A direct record ranks ahead of shared-opponent results even when it is small or a loss — read the records and sample sizes, not just the rank.

Order: direct meetings first (by observed direct record, then more meetings); then shared-opponent results (by our player's record against opponents both players have faced, then more shared opponents, then more games); players with no evidence are listed last and not ranked (—). “2=” marks a tie the evidence can't separate — the Basis column names who is tied.

About these rosters

- = not captured in the source data.
 - SL = the skill level this team scope records for its format (8-Ball and 9-Ball levels differ).
 - Skill totals count only players with a captured skill level — missing players are excluded, never counted as 0. Totals are informational, not a lineup-legality check; a cap appears only if you enter one in Lineup Lab.
 - Rosters are each team's CURRENT captured roster, not a reconstruction of who actually played on any particular date.
- Players are identified by APA record ID — not by name, and not by the league card number printed on a member card.
 - The evidence ranking orders our players by recorded direct and shared-opponent results only; ties and missing evidence are labeled. It is not win odds and not a guaranteed or optimal lineup.
 - No win probability is shown: NOT CALIBRATED.
